

CONSTRUCTION MATERIAL COATING PRODUCTS

MANUFACTURER WARRANTY

Bubble Monster's coating products are the most advanced solutions, developed through extensive research and rigorous testing beyond conventional standards, based on our proprietary BMCT technology. Designed for specific constructions, these coatings maximize performance and customer satisfaction. To enhance the value of each solution and ensure user confidence, we issue a "Warranty Certificate" for all applied Bubble Monster products. This certificate serves as proof for future warranty claims related to product or construction defects, so please keep it carefully.

1. General Terms and Conditions

The Bubble Monster's officially certified coating service provider 'Specialist' offers the following free warranty coverage, provided that the coated product is used and maintained in accordance with Post Management guidelines from the date of construction.

- Inability to remove contaminants (water stains and oil stains) from the coated surface
- Cracking or peeling of the coating film, thermal deformation caused by radiant heat, and damage resulting from the use of recommended detergents and cleaning tools (as per Post Management guidelines).

► Water stains and oil stains

X10 : 3 years / M9 : 3 years / G9 : 1 year

► Cracking or peeling of the coating film, thermal deformation caused by radiant heat, and damage resulting from the use of recommended detergents and cleaning tools

X10 : 10 years / M9 : 10 years / G9 : 3 years

- To receive warranty service, it is required to present the Quality Warranty Certificate issued at the time of construction.
- Warranty claims are limited to cases of inherent product defects or construction faults that do not fall under Section 2 (Warranty Limitations) and are subject to reconstruction. It is explicitly stated that no claims for damages or compensation beyond reconstruction will be accepted.
- This warranty cannot be assigned in the event of a change in ownership after the initial construction.
- The responsibility for the free warranty lies with the original construction provider and is not associated with our company.

2. Limitation on Warranty

The following cases are not covered by the free warranty, and reconstruction will be subject to additional charges.

- Physical wear (impact damage) or chemical exposure caused by user negligence
- Damage caused by the use of incompatible ("Not Recommended or "Cautious") detergents and cleaning tools marked in the Post Management guidelines
- Reduction in water- and oil-repellent properties, and minor scratches from regular use
- Failure to perform regular maintenance as specified in the

Post Management guidelines.

- 1st damage caused by natural disasters such as fire or flooding, as well as secondary effects resulting from such incidents
